

Orthotic Essentials

Product Catalogue

Orthotic Essentials Product Catalogue

From humble beginnings, we have grown to become one of the UK's largest suppliers of orthotic and orthopaedic products to the NHS, blending bespoke and standard devices as well as innovation and age-old skills.

- Introduction 4
- 1 - Head and Neck 6
- 2 - Spine and Torso 14
- 3 - Arm and Shoulder 26
- 4 - Wrist and Hand 32
- 5 - Hip and Knee 40
- 6 - Ankle and Foot 46
- 7 - Adult Insoles 64
- 8 - Paediatric 76
- 9 - Index 102

Welcome to the Steeper Orthotic Essentials product catalogue.

The Steeper Orthotic Essentials range offers a selection of carefully handpicked stock products that ease and enable patient mobility. A full head to toe range, these off-the-shelf options offer clinicians value for money, high quality products that are readily available within a short lead-time.

For any queries regarding the products within this catalogue, or any others outside of this range, please contact orthotickenquiries@steepergroup.com.

Bespoke custom manufacturing service

To complement our comprehensive stock products range, we also manufacture a variety of fully bespoke products at our Steeper manufacturing sites in the UK. These products include:

- Scrum-type helmets
- Neck collars
- Spinal bracing
- Hip bracing
- KAFOs
- Knee bracing
- AFOs
- Insoles
- Footwear
- Repairs and adapts

Creating custom devices for orthotic application demands rare skills with tried-and-tested techniques. We are proud to have our expert technicians with these skills, who are committed to crafting the perfect orthoses to provide superior stabilisation, support and comfort to patients.

With specialisms from paediatric all the way to geriatric, our technical teams produce products that provide exceptional fit and functionality.

For further information on our bespoke custom products and manufacturing capabilities, please contact orthotickenquiries@steepergroup.com

How to order

Steeper accepts orders by the following methods:

- by telephone 0113 207 0435
- by fax 0113 272 5689
- by email orthotickenquiries@steepergroup.com

Please specify product code, quantity required and any special delivery information.

Delivery options

The following options are available as standard:

- First class post
- Next working day

If you require a timed delivery the following options are available:

- Next working day before 9:00*
- Next working day before 10:30
- Next working day before 12:00 noon
- Saturday delivery**
- Same day delivery**

For next day delivery, orders must be placed with Steeper by 17:00.

Additional delivery charges may apply for timed delivery, please contact Customer Services for further details.

*Subject to location, restrictions may apply.

**Additional charges and restrictions may apply, please contact Customer Services for further details.

We can offer order confirmation on all orders via e-mail or fax.

Returns procedure

All stock may be returned within a 30 day period, it must be in its original packaging and in a saleable condition.

We do not charge restocking fees for our range of orthotic essentials products. Custom and made to order products are non-returnable as these have been made outside the standard size ranges. If in doubt please contact our Customer Services team for clarity on 0113 207 0435.

Delivery shortages/satisfaction

On receipt of your goods, please check that the delivery note matches what you have received. In the unlikely event of receiving the wrong product or quantity, please notify our Customer Services team within 7 days.

Single patient use

Any product supplied by Steeper is for single patient use only and should be fitted by a qualified professional. Re-use of any products is potentially dangerous and will invalidate the CE mark or any warranty.

Starlight Standard

Features and Benefits

- Impact absorbing foam construction
- Cotton jersey lining
- Soft to the skin
- Wicks away moisture
- Allows air to circulate
- Outer layer made from robust cotton for longevity
- Lightweight - approximately 100g
- Machine washable
- Available in head circumferences 45cm to 62cm in 1cm increments

Indications for Use

- Simple yet effective protection for people at risk of head injury

Colour	Product Code
Brown*	5180-size
Red	5180-1-size
Blue	5180-2-size

Example: for a red Starlight Standard Helmet measuring 50cm - "5180-1-50"

*Available to order but non-returnable. Example: Helmet measuring 45cm - "5180-45"

Starlight Secure

Features and Benefits

- Impact absorbing soft/firm foam combination construction
- High quality cotton
- Soft to the skin
- Lightweight - approximately 100g - 130g (size dependent)

Indications for Use

- Advanced protection for people at risk of head injury

*Starlight Secure model shown with optional forehead protector, neck cushion and chin guard

Size	Head Circ. (cm)	Product Code	Accessories	Product Code

Basic Foam Collar

Features and Benefits

- Symmetrical design provides comfortable support, suitable for night use
- Touch and close fastening

Material: Medium density foam covered with stockinette.

Indications for Use

- Spondylitis
- Spondylosis
- Rheumatoid arthritis
- Osteoarthritis

Size	Neck Circ. (cm)	Front Depth (cm)	Product Code
X-Small	33 - 37	7	BFC/XS
Small	38 - 42	8	BFC/S
Medium	43 - 46	9	BFC/M
Large	47 - 51	10	BFC/L
X-Large	52 - 56	11	BFC/XL

*Made to measure service available, please provide neck circumference and front depth

Semi Rigid Collar

Features and Benefits

- Provides improved stability with shaped chin support, suitable for night use
- Touch and close fastening

Material: High density PVC foam laminate covered with stockinette.

Indications for Use

- Spondylitis
- Spondylosis
- Rheumatoid arthritis
- Osteoarthritis

Size	Neck Circ. (cm)	Front Depth (cm)	Product Code
Small	38 - 42	6.5	SRC/S
Medium	43 - 46	7	SRC/M
Large	47 - 51	8	SRC/L

*Made to measure service available, please provide neck circumference and front depth

Shaped Foam Collar

Features and Benefits

- Symmetrical design provides comfortable support, suitable for night use
- Increased shaping to reflect underlying anatomy and provide an improved fit
- Touch close fastening

Material: Medium density foam covered with stockinette.

Indications for Use

- Spondylitis
- Spondylosis
- Rheumatoid arthritis
- Osteoarthritis

Size	Neck Circ. (cm)	Front Depth (cm)	Product Code
Small	38 - 42	6.5	SFC/S
Medium	43 - 46	7	SFC/M
Large	47 - 51	8	SFC/L

*Made to measure service available, please provide neck circumference and front depth

Philadelphia Collar

Features and Benefits

- Two-piece moulded collar provides adjustable and comfortable support
- Touch and close fastening

Material: Non-toxic hypo-allergenic plastazote.

Indications for Use

- Spondylitis
- Spondylosis
- Rheumatoid arthritis
- Osteoarthritis
- Post-op control of extension/flexion

Size	Neck Circ. (cm)	Product Code	
		Front Depth 8.5 cm	Front Depth 11 cm

Medium	33 - 41	PCC/8.5/M	PCC/11/M
Large	41 - 49	PCC/8.5/L	PCC/11/L

Universal PROGLIDE 172

Features and Benefits

The PROGLIDE 172 cervical collar is one of our most advanced collars to date. It maintains posture and with improved padding, allows more effective pressure distribution to decrease the risk of redness and skin breakdown. The easy glide system has 12 adjustments available, allowing for improved fit and aims to be a one-size-fits-all solution. The collar also combines a new and improved hook and loop fastening system, providing the clinician with advanced control whilst fitting.

- Ergonomic adjustable control system
- 12 individual adjustments
- Pulley system cervical collar
- Removable thoracic attachment
- Soft cloth inner liner
- Tracheal opening
- MRI, CT, X-Ray compatible

Indications for Use

- Cervical spine precaution for trauma patients
- Immobilisation for pre and post cervical spine surgery
- Degenerative disorders
- Spinal stenosis
- Spondylolisthesis
- Anterior cervical fusion
- Halo removal
- Dens type 1 cervical fractures of C2 vertebrae
- Anterior discectomy
- Teardrop fracture of the vertebral body
- Cervical strain
- Neural involvement
- Atlanto-occipital dislocation

Universal	172 Collar	PG172
Universal	Spare liner set	PGPAD172

Universal PROGLIDE 174

Features and Benefits

The PROGLIDE 174 cervical collar is designed to offer maximum support with the addition of an extended sternal pad for increased occipital support. The easy glide system has 12 adjustments available, allowing for improved fit and aims to be a one-size-fits-all solution. The collar maintains posture and with improved padding, allows more effective pressure distribution to decrease the risk of redness and skin breakdown. The collar also combines a new and improved hook and loop fastening system, providing the clinician with advanced control whilst fitting.

- Extended sternal pad and occipital support
- Ergonomic adjustable control system
- 12 individual adjustments
- Pulley system cervical collar
- Removable thoracic attachment
- Soft cloth inner liner
- Tracheal opening
- MRI, CT, X-Ray compatible

Indications for Use

- Cervical spine precaution for trauma patients
- Immobilisation for pre and post cervical spine surgery
- Degenerative disorders
- Spinal stenosis
- Spondylolisthesis
- Anterior cervical fusion
- Halo removal
- Dens type 1 cervical fractures of C2 vertebrae
- Anterior discectomy
- Teardrop fracture of the vertebral body
- Cervical strain
- Neural involvement
- Atlanto-occipital dislocation

Miami J® Advanced

Features and Benefits

- Unique sizing mechanism allows for easy modification to suit individual patients, simultaneously achieving an accurate fit and reduced stock levels
- Bioengineered to minimise pressure points in key known areas: chin, occiput, trapezius and clavicle
- Sternal pad disperses ambulatory pressure and is fully removable, enabling the front of the collar to be taken off when cleaning intubated patients, without the need to remove the tube
- Patented Flex Edge® technology delivers soft over-moulded edges that gently conform to the contours of the anatomy and distribute pressure evenly
- MRI, CT and X-ray lucent

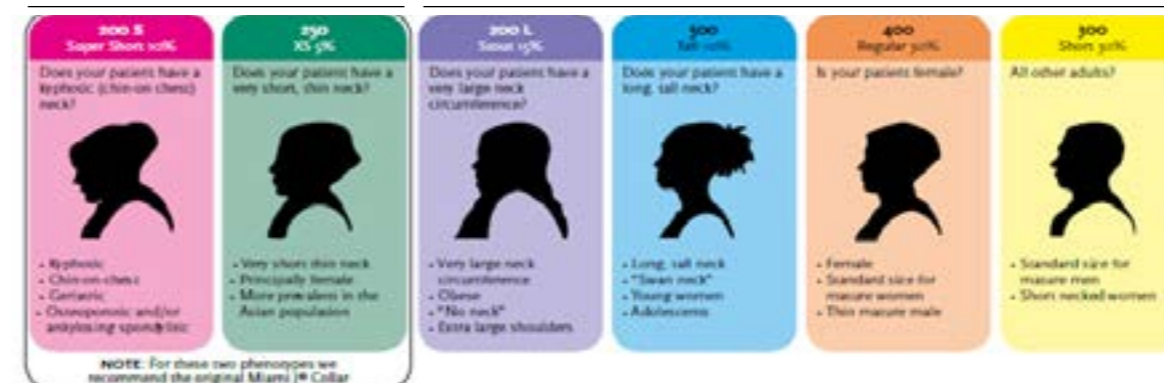

Indications for Use

- Post trauma
- Stable cervical fractures
- Cervical spondylitis
- Cervical spondylosis
- RA and OA cervical spine
- Herniated cervical disc
- Post operative

Phenotype Sizing Chart

Speciality sizes: 15% of the population

Standard sizes: 85% of the population

With Miami J® Advanced, one collar can be adjusted to fit various sizes, please contact Customer Services for guidance on sizing.

Description	Product Code - Collar Set*	Product Code - Collar
Miami J® Advanced	MJAR-101	MJA-100
Replacement pads	MJAP-101	

* The collar set comes with one additional set of replacement pads.

Miami J® Cervical Collar

Features and Benefits

- Sorbatex™ padding is antibacterial and clinically proven to inhibit microbial growth, which enhances comfort and helps ensure patient compliance
- MRI, CT and X-ray lucent
- Bioengineered to minimise pressure points in key known areas: chin, occiput, trapezius and clavicle
- Comfort adjustment buttons for occiput and sternal pad removable when lying and swallowing

Indications for Use

- Post trauma
- Stable cervical fractures
- Cervical spondylitis
- Herniated cervical disc
- RA and OA cervical spine
- Cervical spondylosis
- Post operative

Sizing Chart

Speciality sizes: 30% of the population

Standard sizes: 60% of the population

Phenotype based sizing system makes size selection simple while drastically reducing margin of error in fitting a patient. Each collar has bioengineered size specific front and back sections designed to work together for superior immobilisation.

Miami J front and back panels may be interchanged to accommodate patient anatomy, e.g. a short front may be used with a tall back. Choose collar size based on patient neck height, not patient body size. Super short consist of a regular back panel and a super short front panel.

Please contact Customer Services for guidance on sizing.

Size	Product Code Collar Set*	Product Code Collar	Product Code Collar Back	Product Code Collar Front	Product Code Replacement Pads

*Collar sets come with one additional set of replacement pads.

**Super Short collars are packaged with Regular Back Panels.

Aspen Vista® Universal Collar

Features and Benefits

- Innovative height adjustment technology
- Adjustable front depth using a unique dial adjustment mechanism
- The Vista collar is six collars in one, allowing for improved fit
- Reducing storage and inventory costs
- 100% cotton - latex free

Indications for Use

- Post-trauma
- Stable cervical fractures
- Cervical spondylitis
- Cervical spondylosis
- R/A & O/A cervical spine
- Herniated cervical disc
- Post-operative
- Motor Neurone Disease

VENUM Universal LSO

Features and Benefits

The VENUM LSO is the ultimate one-size-fits-all semi rigid comfort brace for the lumbar-sacral region. Its primary function is to reduce pain, whilst providing support and immobilisation to the lumbar-sacral spine. The highly effective cincher design produces maximal intra-abdominal pressure to distract the vertebral bodies of the spine, reducing pain, improving non/post-operative outcomes and enhancing patient rehabilitation. As the brace is universal in nature, it has the benefit of fitting every patient type and can be stored easily where limited storage is available.

- Double drawstring pulley closure system
- Cincher technology
- Reduced stock holding
- Cost effective
- Motion restriction of the lumbar regions L1 - L5
- Mechanically advanced single or dual compression closure system provides a 6:1 pull ratio
- Posterior panel is available in independent or central support panel designs which creates a natural support system for the spine that can be customised to provide the perfect fit
- Ergonomic arthritic grips can be customised to patient size by extending or retracting cable length
- Made with durable, breathable, soft, hypo-allergenic materials that wick away perspiration
- Fits waist circumferences from 60cm-157.5cm; optional extender panel adds 10.25cm to circumference

Indications for Use

- Chronic back pain
- Degenerative, herniated or bulging disc
- Spondylolysis
- Spondylolisthesis
- Spinal stenosis
- Facet syndrome
- Tumours
- Spinal instability
- Burst Fx
- Pre or post-op spinal lumbar stabilisation
- Pre or post-op disk surgery

Oasis LSO

Features and Benefits

Oasis is our most popular bivalve spinal system and ideal for patients who require maximum support, but cannot tolerate most rigid LSO braces.

- The traction closure system provides easy compression adjustments
- Revolutionary spacer fabric offers increased breathability, heat and moisture removal, less bulk and longer life span than trilaminates
- Flexibility of closing mechanism ensures an excellent fit across various body shapes
- Effective within T9 - S1

Indications for Use

- Burst Fx
- Post-op spinal lumbar
- Stabilisation
- Chronic back pain
- Compression Fx
- Degenerative, herniated or bulging disc
- Spinal instability
- Post-op disc surgery
- Spondylolysis

Universal Cross Pectoral Brace

Features and Benefits

A comfortable, cosmetic hyperextension brace which can easily be donned and doffed.

- Adjustable, flexible pectoral pads with silicone hinges fit comfortably below clavicles and does not impinge on the patient's sternum or choke when sitting, thus providing increased comfort and compliance
- ATL pectoral pads provide rotation and linear adjustment
- Hinged pubic pad assembly adjusts to the patient's contour and can be quickly manipulated for a precise fit
- Universal closure strap and pad
- One long strap which can be cut to the patient's circumference and fit with a Y-tab over the end
- Anterior closure allows for easy donning and doffing

Indications for Use

- Osteoporosis
- Kyphosis
- Thoracic stabilisation
- Thoracic extension
- Spinal alignment

Size	Description	Product Code
Universal	Universal Cross Pectoral Brace	CROSSP

Hyperextension Brace

Features and Benefits

- Lightweight aluminium construction
- Padded pelvic band - can be locked or free to adjust as patient changes from standing to sitting, avoiding brace shift
- Simple height and width adjustment of sternal component
- Three step auto-lock system allows for easier access
- Lightweight and hard wearing polymer hinge with no metal springs guarantees the right amount of movement between the frames and pelvic band

Indications for Use

- Immobilisation following inter-vertebral disc surgery
- Stable vertebral compression fractures of the lower thoracic and lumbar spine

SOMI Brace

Features and Benefits

Fully adjustable cervical system providing maximum support whilst immobilising the head, includes headband for rigidity when chin plate is removed for washing, eating or dressing.

Indications for Use

- Post trauma cervical spine instability
- Rheumatoid arthritis control of extension/flexion - side flexion and rotation

Size	Product Height (cm)	Product Code
Small	Up to 144	SOMI/SML
Regular	Over 145	SOMI/REG

Made to Measure

We can manufacture your spinal orthosis utilising the latest CAD/CAM technology which allows us to carve a mould nearly identical to your patient's measurements or scanned image.

Each individual orthosis is fabricated to the patient's unique measurements and your specifications, ensuring the very best fit, support, and comfort.

Please refer to page 83 for the Custom Spinal order form or contact orthotickenquiries@steepergroup.com for more information.

Custom Scoliosis Brace

VENUM Universal TLSO PPX

Features and Benefits

The VENUM TLSO PPX is the ultimate one-size-fits-all semi rigid comfort brace for the thoraco lumbar-sacral region. Primarily, this brace reduces pain, whilst providing support and immobilisation to the thoraco lumbar-sacral spine. The brace features unique anterior pads and in combination with the highly effective cincher system is designed to produce maximal intra-abdominal pressure to distract the vertebral bodies of the spine. As the brace is universal in nature, it benefits from fitting every patient type and can be stored easily where limited storage is available.

- Reduced stock holding
- Cincher technology
- Cost effective
- Step-down, streamline design
- Motion restriction of the thoracic and lumbar regions L5 - T4
- Mechanically advanced single or dual compression closure system provides a 6:1 pull ratio
- Posterior panel is available in independent or central support panel designs which creates a natural support system for the spine that can be customised to provide the perfect fit
- Ergonomic arthritic grips can be customised to patient size by extending or retracting cable length
- Made from durable, breathable, soft, hypo-allergenic materials that wicks away perspiration
- Fits waist circumferences from 60cm - 157.5cm; optional extender panel adds 25cm to circumference

Indications for Use

- Chronic back pain
- Degenerative, herniated or bulging disc
- Spondylolysis
- Spondylolisthesis
- Spinal stenosis
- Facet syndrome
- Tumours
- Spinal instability
- Burst Fx
- Pre or post-op spinal thoraco-lumbar stabilisation
- Pre or post-op disk surgery

VENUM Universal HYBRID TLSO

Features and Benefits

The VENUM HYBRID TLSO is the ultimate one-size-fits-all semi rigid comfort brace for the thoraco lumbar-sacral region. This brace has the ability to contour to a kyphotic-shaped spine and is more forgiving in the treatment of elderly patients who would struggle with the rigidity of a TLSO with anterior extension. Primarily, this brace reduces pain, whilst providing support and immobilisation to the thoraco lumbar-sacral spine. The brace features unique anterior pads and in combination with highly effective cincher system is designed to produce maximal intra-abdominal pressure to distract the vertebral bodies of the spine. As the brace is universal in nature, it benefits from fitting every patient type and can be stored easily where limited storage is available.

- Reduced stock holding
- Cincher technology
- Cost effective
- Step-down design
- Streamline design
- Mechanically advanced single or dual compression closure system provides a 6:1 pull ratio
- Posterior panel is available in independent or central support panel designs which creates a natural support system for the spine that can be customised to provide the perfect fit
- Ergonomic arthritic grips can be customised to patient size by extending or retracting cable length
- Made from durable, breathable, soft, hypo-allergenic materials that wick away perspiration
- Fits waist circumferences from 60cm - 157.5cm; optional extender panel adds 25cm to circumference

Indications for Use

- Chronic back pain
- Kyphosis
- Osteoporosis or osteoporotic fractures
- Degenerative, herniated or bulging disc
- Spondylolysis
- Spondylolisthesis
- Spinal stenosis
- Facet syndrome

Oasis TLSO

Features and Benefits

Oasis is our most popular bivalve spinal system and ideal for patients who require maximum support, but cannot tolerate most rigid LSO braces. Revolutionary spacer fabric offers increased breathability, heat and moisture removal, less bulk and longer life span than trilaminates.

The Oasis TLSO and TLSO LP 3 Panel DLK includes a Dorsal Lumbar Kit (DLK) with Sternal Panel to prevent forward flexion. Effective within T4 - S1.

Indications for Use

- Burst Fx
- Chronic back pain
- Compression fracture
- Degenerative, herniated or bulging disc
- Kyphosis
- Laminectomy
- Osteoporosis
- Paraplegia
- Post-operative
- Spinal stabilisation
- Spinal stenosis
- Spondylolysis
- Spondylolisthesis

Model wearing SPK version shown adjacent. (SPX ATE version fitted to the Edge model shown on next page)

Available in SPK & PPK versions, other versions available to order.

Edge TLSO

Features and Benefits

- A rigid spinal system designed to provide patients with maximum stability and support
- Edge restricts and controls unwanted motion while providing intracavitary pressure to unload the intervertebral discs
- Combines rigid anterior and posterior polymer shells with removable soft padding
- The back panel has built-in reinforcement and a spinal relief opening
- The soft padding keeps patients dry and comfortable by wicking away moisture
- Ideal for geriatric and other patients who tend to suffer from skin breakdown or sores, yet require maximum support
- The Edge spinal system provides superior stabilisation and support that patients need with ultimate comfort
- Flexibility of closing mechanism ensures an excellent fit across various body shapes
- Effective within T4 - S1

Indications for Use

CTLSO Bivalve

Features and Benefits

A rigid modular spinal system designed to limit spinal movement to promote the healing of spinal fractures. Each brace is padded with breathable foam to improve comfort for the patient.

- A rigid spinal system designed to provide patients with maximum stability and support to the cervical-lumbar spine to the C3 - L4.
- Restricts and controls unwanted motion
- Durable and easy to clean and can be easily modified
- Combines rigid anterior and posterior polymer shells
- Chape and hook and loop fastening system

Indications for Use

- Post-operative internal fixation
- Multiple level fractures
- Burst fracture
- Compression fracture
- Spinal stenosis

Standard Maternity Support

Features and Benefits

- Providing gentle, firm support to alleviate lumbar pain
- Lift and back support can be controlled independently, soft elasticated insets and shaping provide comfort
- Easy and inconspicuous to wear under most clothing
- Support expands to accommodate growth during various stages of pregnancy

Indications for Use

- Abdominal support
- Lower back pain

Size	Product Code
63 - 81	SMS/S
81 - 112	SMS/M
112 - 142	SMS/L
142 - 172	SMS/XL

Low Profile Maternity Support

Features and Benefits

- Low profile design for improved comfort, especially when sitting
- Shaped posterior section to improve the fit around sacral area
- Easy and inconspicuous to wear under most clothing

Indications for Use

- Lower back pain

Size	Circ. Abdomen Widest (cm)	Product Code

OMO HIT

Features and Benefits

- Stabilisation of shoulder
- No stretching in shoulder-neck region
- Secure fixing of arm
- Early functional follow-up treatment eases post-operative physiotherapy
- Anatomically contoured support with silicone insert for friction massage on the musculofascial trigger points
- Cold/hot pad to reduce pain and oedema
- Axillary freedom allows easy body hygiene and increased comfort when wearing

Indications for Use

- Follow-up treatment after shoulder luxation, shoulder sub-luxation
- Sprain, contusion
- Fixing of various upper arm fractures
- Shoulder blade fracture
- Follow-up treatment in injuries to the rotator cuff
- Shoulder bursitis
- Post-operative treatment

XX-Large	122 - 137	205039

Subluxation Cuff

Features and Benefits

- Proven, effective design with comfortable padded straps
- Subluxation is resisted by the pull of the strapping acting on the upper arm across the shoulder
- Universal left/right application

Indications for Use

- Hemiplegia
- Shoulder subluxation

Size	Mid Upper Arm Circ. (cm)	Product Code
Small	22 - 27	SLC/S
Medium	27 - 31	SLC/M
Large	31 - 35	SLC/L
X-Large	35 - 40	SLC/XL

Cotton Arm Sling

Features and Benefits

Durable cotton sling with soft padded D-ring adjustment strap

Indications for Use

- Post upper limb trauma
- Post upper limb surgery
- Forearm, elbow and arm immobilisation

Size	Forearm Length (cm)	Product Code
Small	Up to 33	COS-S
Medium	33 - 37	COS-M
Large	37+	COS-L

Universal High Arm Sling

Features and Benefits

- Lightweight breathable mesh
- Touch and close strap fastening

Indications for Use

- Forearm, elbow and arm immobilisation

Size	Product Code
Universal	0860

Universal Comfort Shoulder Immobiliser

Features and Benefits

- Effective immobilisation from body swathe
- Sling and humeral retaining band
- Comfortable materials
- Universal size and left/right application
- Universal sizing to reduce stock holding

Indications for Use

- Post rotator cuff injury
- Stabilised fractures
- Shoulder dislocation
- Post op immobilisation

Size	Product Code
Universal	23-4100

Sling and Swathe

Features and Benefits

- Features high profile sling designed to encompass the elbow and swathe with contact closure
- Manufactured from seamless, lightweight, durable material

Indications for Use

- Indicated for immobilisation following rotator cuff repairs, S/P glenohumeral acromioplasty surgery, or other shoulder related injuries

Size	Forearm Length (cm)	Product Code
Small	Up to 22.5	23-4401
Medium	22.5 - 25	23-4402
Large	25 - 30	23-4403
X-Large	30 - 35	23-4404

Hinged Elbow Sleeve

Features and Benefits

- Metal hinges limit medial and lateral movement and restrict hyperextension
- Universal left/right application

Material: Coolmax®

Indications for Use

- Bursitis
- Osteoarthritis
- Tendonitis
- Rheumatoid arthritis
- Joint inflammation

Size	Elbow Joint Circ. (cm)	Product Code
Small	23 - 25.5	HES/BX/BE/S
Medium	25.5 - 28	HES/BX/BE/M
Large	28 - 30.5	HES/BX/BE/L
X-Large	30.5 - 33	HES/BX/BE/XL

Tennis Elbow Sleeve

Features and Benefits

- This Coolmax pull sleeve has a positive effect on maintaining bodycare temperature - Coolmax is fast drying, breathable and resists fading, shrinking and wrinkling
- The strap allows control of compression for maximum effect and pain relief

Material: Coolmax®

Indications for Use

- Medial and lateral epicondylitis

Size	Elbow Joint Circ. (cm)	Product Code
Small	20.5 - 23	TES/CX/BE/S
Medium	23 - 25.5	TES/CX/BE/M
Large	25.5 - 28	TES/CX/BE/L
X-Large	28 - 31	TES/CX/BE/XL

ROM Elbow Brace

Features and Benefits

- Soft foam wraps
- ROM hinge for setting flexion/extension
- Touch and close fastening, also supplied with soft padded arm sling

Indications for Use

- Elbow contracture management
- Post-op elbow flexion/extension control

Size	Elbow Joint Circ. (cm)	Length (cm)	Product Code
Small/Medium	23 - 31	39	REB/S-M
Large/X-Large	32 - 40	39	REB/L-XL

Tennis Elbow Band

Features and Benefits

- Relief of tennis elbow or golfer's elbow
- The compression can be applied to medial or lateral epicondyles
- Universal left/right application

Indications for Use

- Medial and lateral epicondylitis

Size	Forearm Circ. (cm)	Product Code
Small	24 - 25	EPI/S
Medium	26 - 27	EPI/M
Large	28 - 30	EPI/L

Universal Palm Protector

Features and Benefits

- Fleece-lined, lightweight palm cover
- Designed to allow full finger movement whilst reducing finger contractures and skin damage/breakdown in the palmar region
- The Universal Palm Cover is easily laundered and is easily applied using hook and loop fastening straps

Indications for Use

- Post surgery/injury positioning
- Hypertonic contractures
- Rheumatoid arthritis

Size	Product Code Left	Product Code Right
Universal	PPL	PPR

Hand Positioning Brace

Features and Benefits

- Hand positioning brace that supports the fingers, thumb and wrist in functional and/or resting position
- Removable/washable cover
- Simple hook and loop closures
- Designed for limited function and comfort

Indications for Use

- Post surgery/injury positioning
- Hypertonic contractures
- Rheumatoid arthritis

Material: Synthetic lambs wool

Size	Palm Width (cm)	Length (cm)	Product Code Left	Product Code Right

Comfyrene Contour Hand Orthosis

Features and Benefits

- The Comfyrene® Contour Hand Orthosis has unique side flaps that hold the wrist in place allowing for full hand contouring
- C-bar and thumb support with included strap
- 4 straps come as standard
- Unique butterfly designed side straps hold wrist and forearm in place
- Contours the whole hand, wrist and forearm
- Instead of removable terrycloth covers, the Comfyrene splint inserts are covered with soft neoprene and headliner material, which creates a slim profile for everyday comfort
- Splints are adjustable and re-adjustable using the Comfy™ patented reinforced spine
- Straps may be positioned anywhere on the splint for optimal fit

Indications for Use

- Use after sports injuries
- Removal of casts
- Sports medicine
- Arthritic patient's support of the weakened extremity

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code Left	Product Code Right
Adult	17.8 +	27.9	HCO-101-CP-LB-LT	HCO-101-CP-LB-RT

Comfy Hand-Wrist Finger Orthosis

Features and Benefits

- Provides support and positioning for the weak or deformed wrist, hand or fingers
- Serves as an excellent resting splint to prevent trauma to joints and positions to increase ROM
- Side wings prevent ulnar and radial deviation
- Arm cuffs easily adjust to width of arm
- Excellent resting splint to prevent trauma to joints and increases ROM
- Terrycloth
- Headliner
- Ambidextrous
- Paediatric sizing

Indications for Use

- Flaccid drop wrist
- Repetitive strain injury
- Rheumatoid arthritis
- Carpal tunnel syndrome

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code
Small	15.2 - 17.8	27.9	H101-AS
Medium	17.8 - 20.3	31.8	H101-AM
Large	20.3 +	34.3	H101-AL

Add finger separators - FS1

Paediatric sizes also available - see page 86

Comfy Air Hand Orthosis

Features and Benefits

- The Comfy Air Hand Orthosis is an exceptionally useful splint for the severely contracted hand
- It has an adjustable air bladder that allows gradual extension of the MP, DIP and PIP joints, as well as an adjustable wrist for customised fit
- Ingeniously designed by a therapist, one simply inserts the un-fitted splint with the bladder under the fingers and then pumps air to inflate the bladder and increase finger extension. (Headliner material only)
- Ambidextrous

Indications for Use

- Ideal for the severely contracted hand
- Inflatable air bladder allows for gradual MP, DIP and PIP joint extension
- Adjustable wrist
- Provides low pressure stretch therapy
- Hand air bladder can be used separately without full orthosis as needed
- Can fit into even the most tightly clenched hand

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code
Adult	17.8 - 20.3	31.8	HA101-A

Short Wrist Brace

Features and Benefits

Standard single compression one-piece wrist brace provides good conformity around the wrist and hand.

Indications for Use

- Flaccid drop wrist
- Repetitive strain injury
- Rheumatoid arthritis
- Carpal tunnel syndrome

Material: Neoprene

About Coolmax®

CoolMax is the industry leader when it comes to moisture management.

Lined with Coolmax®

- Moves moisture away from your body
- Lining dries quickly
- Added performance keeps you cool and comfortable

Coolmax is a registered trademark of INVISTA (formerly DuPont Textile & Interiors) Airprene is a Trade Mark of Airprene LLC.

Thumb Spica - Neoprene

Features and Benefits

Neoprene thumb spica featuring a removable flexible stay which restricts movement at the CMC and MCP joints, leaving the IP joint free.

- Warmth and compression
- Removable flexible stay
- Restricts CMC and MCP joint
- Leaves IP joint free

Indications for Use

- CMC joint arthritis
- CMC instability
- Tendinitis
- Pain associated with repetitive motion
- Osteoarthritis
- Painful/unstable 1st mcp joint
- Rheumatoid arthritis
- Thumb strains
- Sprains and post-cast removal

*Elastic also available, please contact Customer Services.

Wrist and Thumb Spica - Neoprene

Features and Benefits

- Restricted wrist and thumb motion without limiting finger motion
- Easy fit and comfortable
- Lightweight and padded
- Contours to the anatomy of the wrist and thumb
- Breathable material
- Hook and loop fastening

Indications for Use

- Gamekeeper's thumb
- Post-cast healing
- Soft tissue injuries
- Selective scaphoid injuries

Universal VENUM Hip Brace

Features and Benefits

The one-size-fits-all VENUM Soft Hip Abduction brace incorporates the most advanced technology and materials. A revolutionary soft hip management system for patients of all different shapes and sizes providing maximum comfort and support. The LSO part of the brace operates utilising a cincher system to maximise control. The belt thigh cuff and hinge adjust to fit the dimension of most patients. The brace applies a dynamic abduction force, so that the femoral head remains in the socket.

- Universal design
- Cincher technology
- Size indicator displays belt size to ensure correct and comfortable fitting
- Joint with adjustable abduction/adduction, flexion/extension
- Single or double-pull cable pulley system
- Stock reduction, saves money and space
- Materials are comfortable, breathable, soft, wick-away perspiration and are durable and resilient
- Waist circumference range: 60cm - 157.5cm
- Extender panel adds an additional 25cm (sold separately)
- Ergonomic arthritic grips can be customised to patient size

Indications for Use

- For patients at risk of hip dislocation, suitable for all levels of instability

Material: 30% Polyurethane 70% Polyamide

Hip Control System

Features and Benefits

- Preformed modular plastic waist and thigh components
- Combination Kinesio joint, controls flexion/extension, abduction/adduction
- Hip and waist components supplied with comfort liners
- Component sizes can be mixed for optimum fit
- Kinesio offset hinge with abduction/adduction settings (7.5° increments) and flexion/extension settings (from 0° to 120° in 15° increments)

Indications for Use

- This modular hip orthosis system offers functional and effective support in the treatment of various hip pathologies

Escort Hip Brace

Features and Benefits

- A lightweight patient friendly brace using the latest in hip joint technology
- The joint system abducts the leg only during flexion allowing a normal gait
- The pelvic section is designed to fit just below the iliac crest, eliminating impingement on the rib cage whilst seated
- The thigh section is a two-piece medial/lateral design that allows for maximum adjustability and positive purchase on the leg

Indications for Use

- Functional and effective support in the treatment of various hip pathologies

Standard Knee Brace

Features and Benefits

- The front opening design allows easy application for the arthritic or elderly
- Metal side hinges provide medial/lateral stability while allowing flexion
- Opposing fastenings for upper and lower touch and close straps counter rotation and allow correct fitting
- Removable hinges
- Universal left/right application

Indications for Use

- Medio lateral stability
- Osteoarthritis
- Rheumatoid arthritis

Material: Airprene

Standard Universal ROM Knee Brace

Features and Benefits

- Open four panel design
- Easily adjustable ROM hinges for setting flexion/extension
- Touch and close fastening
- Universal sizing to reduce stock holding

Indications for Use

- Post-op immobilisation of the knee
- Unstable knee
- Limitation of knee movement

Size	Product Code
Universal	ROM/L/U

Universal ROM Knee Brace

Features and Benefits

- The Universal ROM Knee Brace features butterfly padding to prevent migration
- With an adjustable length from 57-69cm, the fully adjustable Range of Motion (ROM) knee mechanism has a Drop-Lock system that can fix the joint at 0°, 15°, 20°, 30° and 45°
- Universal sizing to reduce stock holding
- Easy 'Slide & Set' ROM settings:
 - Flexion settings: 0°, 10°, 20°, 30°, 45°, 60°, 75°, 90°, 105°, 120°
 - Extension settings: 0°, 10°, 20°, 30°, 45°, 60°, 75°, 90°
- Compliance ROM protection – easy-fit plastic ties supplied to prevent altering prescribed ROM settings
- Telescopic push-button adjustment mechanism with ability to reposition above and below knee pads
- Full adjustable soft circumferential straps with return buckles and non-slip foam wraps for excellent patient comfort and fit

Indications for Use

- Improved joint function
- Post-operative knee
- Limitation of knee movement

Universal	57260

Contender Universal Post-op Knee Brace

Features and Benefits

- The Contender™ Post-op Knee Brace features a simple adjustment system to minimise fit time after surgery, and at 765g, it is one of the lightest braces on the market.
- The X-Flex™ Cuff System flexes to hug the leg, significantly reducing brace migration. QuikZip™ buckles allow for easy application and micro adjustment of the strap for a secure fit
- The ZipTrak Telescoping System adjusts brace length from 45.7cm - 66cm, in 3mm increments and also allows adjustment of intermediate cuffs to help avoid incision sites
- The hinge features a six position Drop-Lock that fixes the brace from -10° to 40° in 10° increments. Controlled range of motion is available from -10° to 110° and is easily set using flexion and extension finger touch buttons
- Offers the latest in knee brace technology such as multi-telescoping cuffs, user friendly buckles and critical suspension systems
- Length adjustable 45.7cm - 66cm. Fits up to 86.4cm thigh circumference. Measurement taken from leg circumference 15.2cm above mid patella

Indications for Use

- ACL, PCL, MCL and LCL surgeries
- Meniscal repairs
- Patella realignment
- Regenerative chondroplasty
- Stable femoral fractures
- Total knee replacements
- Tibial plateau fractures

Dynamic AFO

Features and Benefits

The Dynamic Walk is a dynamic foot lifting AFO made of a lightweight carbon fibre composite and double sided peek rods that provide high strength and flexibility.

- This unique design allows patients to drive and climb stairs since it provides stable, free movement and constant lifting of the foot
- The open heel construction and slim foot design allows the AFO to fit easily into normal shoes
- Standard sizes below. Wide ankle also available, contact Customer Services for details

Indications for Use

- Flaccid foot drop

ToeOFF® 2.0 Splint

Features and Benefits

- The ToeOFF 2.0 is the updated version of the ToeOFF Original
- Lightweight, carbon reinforced rehabilitation orthosis that absorbs force on heel strike
- Worn at the anterior side of the leg, bridging the ankle and preventing plantar flexion
- SoftKIT 2.0 comprises padding shaped to precisely fit the orthosis and comes supplied with two tibia pads
- ComfortKIT 2.0 comprises thicker padding, designed for the more sensitive skin, fits the orthosis precisely

Indications for Use

- Mild to severe footdrop
- Mild to moderate ankle instability
- Impaired knee control
- Limb proprioception deficit
- Mild to moderate spasticity
- Partial foot amputation

Note: For ToeOFF Original please contact Customer Services.

BlueROCKER™ 2.0

Features and Benefits

- The BlueROCKER 2.0 is the updated version of BlueROCKER Original
- BlueROCKER 2.0 is identical in shape to the ToeOFF 2.0 but offers more rigid orthotic control
- Developed primarily for bilateral patients and those with more involved pathologies
- The extra stability will improve both balance and posture and give the wearer greater security, especially individuals with weak quadriceps muscles
- Usually the preferred orthosis to be used in conjunction with a socket and toe filler for management of partial foot amputations
- SoftKIT 2.0 comprises padding shaped to precisely fit the orthosis and comes supplied with two tibia pads
- ComfortKIT 2.0 comprises thicker padding, designed for the more sensitive skin, fits the orthosis precisely

Indications for Use

- Footdrop
- Weakness or impairment in multiple leg muscle groups
- Impaired balance
- Limb proprioception
- Partial foot amputation

Note: For BlueROCKER Original please contact Customer Services.

Dyna Ankle

Features and Benefits

The Dyna Ankle is primarily used to treat lateral ligament ruptures, but it is also very suitable for the treatment of medial ligament ruptures. Distortion of the upper ankle with lateral ligament rupture usually occurs as a result of excessive plantar flexor supination strain. The talofibular anterior ligament is always affected, so relieving strain on this outer ligament is important for treatment.

- Developed for functional treatment and places the foot in a position with slight pronation and dorsal extension
- Plantar flexion and supination are restricted through a dynamic restraint, while the degree of pronation and dorsal extension motion is unrestricted

Indications for Use

- Lateral ligament rupture
- Medial ligament rupture

Aequi Ankle Brace

Features and Benefits

- The Push Ortho Aequi is an effective ankle orthosis which strikes a balance between efficient mechanical support of a disabled ankle and good wearer comfort
- The rigid support is situated exclusively on the medial side of the ankle and has a recess for the malleolus
- The lateral side is made from preformed foam, which easily adapts to the individual anatomy

Indications for Use

- Serious (residual) instability (under high stress)
- Treatment of acute lateral ankle ligament lesions
- After-care of conservative or operated ankle fractures
- Arthrosis with instability without accumulation of fluid
- Secondary prevention of ankle ligament lesions

Prim Dorsi Assist

Features and Benefits

- Consists of two separated pieces, a supramalleolar strap over the ankle and a non-slip support union to fix between the tongue and shoelaces by means of a central anchorage hook type. Both parts are joined by an elastic strap, which allows variable amounts of dorsiflexion assist
- On the back of the ankle band, there is a gel pad which is cushioned for increased comfort on the achilles tendon
- Discrete, flexible, it takes no space on the shoe, being easy to fit
- To be fitted when lacing the shoe
- Has the function to produce dorsiflexion on the take-off phase of gait, indicated in flaccid palsy

Indications for Use

- Drop foot
- Peroneal neuropathies
- Dysfunctional gait

Foot-Up

Foot-Up shown with footwear

Foot-Up shown with shoeless wrap

Features and Benefits

- Foot-Up is a lightweight ankle orthosis that offers dynamic support for drop foot or similar complaints
- The revolutionary orthosis provides visible improvement in gait by supporting the foot the moment it is raised
- Lightweight and difficult to see under clothes
- Constructed from a padded breathable material it is comfortable to wear with or without footwear (shoeless wrap required for use without footwear)

Indications for Use

- Peroneal neuropathies
- Drop foot
- Dysfunctional gait

Universal PRAFO 650 Kodel

Universal PRAFO 650 Kodel orthosis

Features and Benefits

The PRAFO® (Pressure Relief Ankle Foot Orthosis) is a totally adjustable, custom-fitted AFO that can help manage many of the ankle/foot anomalies patients present. Its custom-contoured aluminium heel connector bar helps to control dorsi-plantar flexion by allowing infinite, measurable adjustments, whilst its ergonomically designed foot plate allows the liner to be changed easily without tools. Its integral, securely fastened vibram walking base provides a shoe-type surface for ambulatory patients. Design ensures that the patient is protected around the vulnerable areas of the foot and heel and will remain so during ambulation. Universal liners are also available to order - use code PRAFO-LINER. The calf and foot segments can be custom-modified to accommodate patient physiology and the anti-rotation bar is made of malleable aluminium and adjusts to control unwanted extremity rotation.

- Designed for recumbent or ambulant protection of the heel and foot
- Zero pressure or shear force at the heel
- Universal sizing to reduce stock holding.
- Resists plantarflexion contractures developing
- Custom modifications are possible
- One version fits both left and right
- Calibrated adjustment of plantar/dorsiflexion
- Integral walking base - designed for ambulation
- Washable and replaceable kodel liner system
- Adjustable foot, toe and calf sections
- Aluminium heel connector for strength
- Rotation bar resists internal/external rotation when used in bed
- Suitable for day and night use

Indications for Use:

- Pressure ulcers
- Can be used to resist the development of contracture

Universal PRAFO APU (adjustable posterior upright)

Features and Benefits

Exact prescribed adjustments can be made in the clinical setting as directed by the managing physician without special tools. When patient outcomes are critical, the APU will provide a simple, precise method to set the ankle/foot complex in the sagittal plane. Rapid changes to settings provide a means to improve patient gait. The PRAFO® AFU has patented its single jointed metal upright that provides a ROM of 30° plantar flexion and 30° of dorsiflexion. Permanent alignment marks are in 5° intervals to facilitate exact prescribed adjustments for improved ambulation needs in addition to contracture management. It also has increased depth for more positive heel suspension. Universal liners are also available to order - use code PRAFO-LINER.

- Designed for recumbent or ambulant protection of the heel and foot
- Zero pressure or shear force at the heel
- Resists plantarflexion contractures developing
- Custom modifications are possible
- One version fits both left and right
- Calibrated adjustment of plantar/dorsiflexion
- Integral walking base - designed for ambulation
- Washable & replaceable kodel liner system
- Adjustable foot, toe and calf sections
- Aluminium heel connector for strength
- Rotation bar resists internal/external rotation when used in bed
- Universal sizing to reduce stock holding

Indications for Use:

- Pressure ulcers
- Can be used to resist the development of contracture

Universal Liner	PRAFO-LINER

Universal PRAFO Dual Action

Features and Benefits

- The pad and strap version allows bulky wound dressings to be accommodated and can allow superior foot control when the PRAFO® is to be used in walking training and other circumstances when mobility is the primary focus
- Universal sizing to reduce stock holding
- Bi-planar adjustments with a screwdriver
- Opportunity to evaluate and train gait
- Ambulatory or recumbent usage
- All the benefits of the 650 and 650 APU - with increased application possibilities
- Calibrated adjustment of plantar/dorsiflexion
- Integral walking base - designed for ambulation
- Washable and replaceable kodel liner system
- Adjustable foot, toe and calf sections
- Aluminium heel connector for strength
- Rotation bar resists internal/external rotation when used in bed
- Universal liners are also available to order - use code PRAFO-LINER.

Indications for Use

- The Dual Action accommodates and helps control varus or valgus conditions of the ankle/foot complex, as well as allowing the practitioner a more precise and simplified method of setting the ankle/foot complex in the sagittal plane

Universal	PRFO/DA
Universal Liner	PRAFO-LINER

Padded PF Splint

Features and Benefits

- Soft, padded, contoured posterior shell provides passive dorsiflexion to address plantar fasciitis and Achilles tendonitis
- Removable liner may be washed for patient hygiene
- Fits right or left foot

Indications for Use:

- Plantar fasciitis
- Achilles tendonitis

Size	Men's UK Shoe Size	Ladies' UK Shoe Size	Product Code
Small	Up to 3.5	Up to 4.5	PPFS/S
Medium	3.5 - 6.5	4.5 - 7	PPFS/M
Large	6.5 - 9.5	7 - 10	PPFS/L

Comfort Night Splint

Features and Benefits

- Adjustable flexion straps provide a gentle stretching of the plantar fascia and achilles tendon
- Soft lycra lined foam interior is soft, washable and breathable to eliminate heat build-up
- Lycra lined foam padded straps maintain comfort across the flexor tendons
- Lightweight, low profile shell is sturdy and breathable
- The orthoses helps to prevent pain and further injury by limiting contractions of the soft tissues at night
- Universal fit - left/right
- Adjustable flexion straps provide a gentle stretching of the plantar fascia and achilles tendon

Indications for Use

- Plantar fasciitis
- Achilles tendonitis
- Plantar flexion contractures

Size	UK Shoe Size	Product Code
Small	Up to 6	UFO/S/E
Medium	6 - 9	UFO/M/E

Leeder Multi-Use Boot

Features and Benefits

- Utilises Flex-E-Core technology for adjustment without the need for tools or heat

Indications for Use

- Plantar fasciitis
- Achilles tendonitis
- Night splinting
- Foot drop

Size	Max. Foot Length (cm)	Brace Height (cm)	Product Code
Paediatric	15	25	LMUP
Adult	25	35	LMUA

Podus Boot

Features and Benefits

- A lightweight, quality plastic shell with poly/pile liner that helps treat and prevent lower extremity disorders associated with trauma or immobility
- An adjustable toe extension helps protect toes from bedding and the anti-rotation bar may be repositioned to assist with internal or external rotation
- Removable transfer pad on the dorsal side for limited patient ambulating
- Fits right or left foot
- Latex free

Indications for Use:

- Pressure neurosis
- Ankle contractures
- Post-op hip abduction/rotation

Size	Men's UK Shoe Size	Ladies' UK Shoe Size	Product Code
Regular	Up to 10	Up to 11	POD-R

A-Boot Universal

Features and Benefits

- Ambulation version (A-Boot) comes with removable, soft, non-slip sole
- Antimicrobial surface protector to shield against mould and mildew, stains, bacteria, fungus and algae
- Super soft fleece lined headliner cover is removable and machine washable
- A toe extension is available to accommodate all foot sizes
- Rotator bar controls hip and leg rotation
- Boots position heel in floating position to prevent pressure areas through pressure reduction
- Comes with extender kit to accommodate for wider or oedematous feet
- Universal sizing to reduce stock holding

Indications for Use

- Wider or oedematous feet
- Ankle contractures
- Heel ulcerations

Size	Product Code
Universal	A-BOOT

Also available in paediatric sizing - page 92

Open Toe Cast Sandal

Features and Benefits

- Open toes and heel for comfort and breathability
- Constructed from ribbed rocker sole with durable upper and contact closure

Indications for Use

- Lower extremity casted fractures

Size	Foot Length (cm)	Product Code
Small	23	69-3081
Medium	28	69-3082
Large	31	69-3083
X-Large	36	69-3084

All Purpose Boot

Features and Benefits

- Removable EVA insole is fully customisable to offload pressure points
- Wider sole and deep opening provides increased room to accommodate large dressings, bandages and casts
- Wide ankle strap eliminates heel slippage as well as securing the foot or cast in the shoe
- A rocker bottom sole encourages smooth roll through gait pattern and reduces plantar pressure

Indications for Use

- Post-operative protection for soft tissue trauma or surgery
- Plantar ulcers/wounds
- Closed toe allows dressing to keep clean and dry
- Wider sole allows more room for dressings and casts

Fracture Walker Brace

Features and Benefits

- Impact-resistant nylon foot piece with removable foam liners
- Liners attach to uprights with touch hook fastening
- Liners are secured to uprights with broad circumferential touch and close fastening
- Universal left or right

Indications for Use

- Post-op ankle stabilisation
- Ankle fracture
- Stress fractures
- Soft tissue and ligament injuries

Size	UK Shoe Size	Product Code

Rebound Air Walker

Features and Benefits

- The Rebound Air Walker features linked medial and lateral air bladders with a single inflation point to provide balanced compression. These air bladders are shaped to cradle the achilles, holding the heel in place for extra stability.
- Moisture wicking soft goods and ventilated panels prevent microbial build up and helps to keep the skin dry and comfortable
 - Straps fasten in front for easy application, adjustment and removal
 - EVA material provides increased shock absorption for the heel
 - Fully-integrated air pump and release valve provides easy, tool-free inflation and deflation for fine-tuned, consistent compression
 - Flex Edge over moulding conforms to each patient's unique anatomy to help limit the formation of pressure points
 - Rocker bottom promotes a natural, stable gait, whilst a semi-soft toe bumper that can be trimmed as required provides added protection

Indications for Use

- Grade 2 and 3 ankle sprains
- Stable fractures
- Post-operative use
- Trauma
- Rehabilitation use

Rebound Diabetic Walker

Features and Benefits

- Uniquely designed for effective treatment of plantar foot ulcers, the Rebound Diabetic Walker enables easy access and re-fitting during wound care, whilst improving the patient's mobility during the healing process by including a rocker bottom outsole for smooth roll-over.
- Effective tri-laminate insole with removable shock-absorbing hexagons that promote ulcer offloading and a Plastazote top layer that evenly distributes the pressure
 - Anatomically designed shell that minimises shear forces by immobilising the foot and ankle and 90 degrees whilst providing protection
 - Flex Edge technology for relief of pressure points, along with a patent-pending pressure relief valve to prevent over-inflation
 - Positioning portals allow the clinician to check the fit of the walker at the heel bottom, in order to ensure appropriate positioning of the foot in the walker
 - Soft and breathable machine washable liner for hygiene promotion and prevention of infection

Indications for Use

- Plantar foot ulcers

VACOped®

Features and Benefits

Inspired by ski boots, the VACOped features a unique design to enable patients to weight-bear earlier, enabling a faster return to daily activities.

- Inner vacuum cushion provides equal and firm support by adjusting itself precisely to the shape of every foot and lower leg and allowing adjustments to be made for swelling
- Adjustable ROM bar allows the boot to be fixed or permit movement dependent on the indication
- Durable, yet lightweight German-engineered plastic shell provides the injury site with the necessary stability and allows an increased freedom of movement in comparison to a plaster cast
- Multiple washable and exchangeable liners promote hygiene

Indications for Use

- Achilles tendon ruptures
- Ankle fractures
- Metatarsal fractures
- Calcaneus fractures
- Ankle replacements
- Arthrodesis

Size	UK Shoe Size	Product Code
Small	3 - 6.5	VPED/S
Medium	6.5 - 9	VPED/M
Large	9 - 10+	VPED/L

Repose Foot Protector

Features and Benefits

Repose Foot Protectors are a unique product designed specifically to minimise the risk of pressure damage to heels. A significant proportion of pressure ulcers occur on the heels due to a combination of pressure and friction/shear. Whilst support surfaces assist in reducing pressure, only a specific device such as the Repose Foot Protector can ensure that pressure on the foot is relieved totally. Clinical studies have shown these heel protectors to be effective in a wide variety of settings.

- May be used in bed or with feet elevated, easily secured with stocking or light bandage
- Can be used with other dynamic or static support surfaces
- Reduces impact of pressure, friction and shear
- Maximum patient weight = 139kg

Indications for Use

- Pressure relief

Size	Length (cm)	Width (cm)	Height (cm)	Product Code
Small	38	20	18	6501100
Large	51	28	18	6021100

Repose Wedge

Features and Benefits

The Repose Wedge has been designed primarily for off-loading pressure from the heels and can be used wherever support or elevation of the lower legs is required. The Repose Wedge offers the same pressure reducing properties as other Repose products. Particularly suited to leg elevation to aid vascular conditions and a useful aid in posture support.

Indications for Use

- The Repose Wedge is a versatile product suitable for a wide range of applications within pressure area

Size	Product Code
Universal (elastic strap)	6711111
Universal (clear strap)	6700000

Tred-lite Modular Footwear Collection

Diabetic specifications

Softer leather, moleskin lining with minimum seams, rim toe puff and padded collars can be added to all styles to create a complete diabetic specification.

Lightweight, practical and customisable footwear

Available in 18 leather (calf and softer) colour options, nubuck and neoprene, the lightweight Tred-lite range is practical, hard wearing and customisable, offering a mixture of styles, fastenings and colour combinations.

Adaptations on Tred-lite

Footwear adaptations and trial fitting service available, along with repairs and adapts.

Specialist sole alternatives

Standard sole and heel provided in lightweight micro EVA, with specialist Vibram® hard-wearing commando also available.

Bespoke insoles ensure best clinical outcome

With a range of insole densities, complementary insoles manufactured at the same time as the footwear ensure the best possible clinical outcome, particularly for total-contact insoles to distribute load and reduce peak pressures on vulnerable areas.

Shock absorbing, lightweight insole support

Using the highest quality EVA, our bespoke insoles retain their shape.

The semi-bespoke Tred-lite range from Steeper offers a variety of fashionable styles to provide comfortable and lightweight footwear for patients. Available in leather, nubuck and neoprene with a range of colour and style options, footwear within the Tred-lite range is crafted with particular care and attention.

Please see below for a sample selection of the Tred-lite footwear range; with options for both men and ladies. Many of the Steeper Tred-lite styles are also available as bespoke footwear.

For Ladies

For Men

For further details on the above styles and to view our full range of Tred-lite footwear, please visit www.steepergroup.com or contact Customer Services for a full brochure.

Silicone Heel Cups

Features and Benefits

- Silicone Heel Cups absorb and dissipate shock forces that may cause pain or discomfort
- Designed for relief of heel pain and light rearfoot trauma, for use during sporting activities or simply to improve comfort
- Manufactured from medical grade silicone, each insole incorporates calcaneal support

Indications for Use

- Heel pain
- Calcaneal spur
- Plantar fasciitis
- Metatarsalgia
- Achilles tendonitis

Size	UK Shoe Size	Product Code
Small	11 - 1.5 (29 - 33)	YT-S04S

Tred-lite Ezi-Rize Insoles

Features and Benefits

- Adjustable heel raise insoles manufactured in multiple layers of EVA (5 x 3mm) with simple peel away layers to achieve the required raise height
- Depth ranges from 3mm to 15mm in 3mm increments

Indications for Use

- Back pain
- Posture related symptoms
- Arch pain
- Leg length discrepancy
- Achilles tendonitis

Size	Width (cm)	Product Code
Male	7	EZI-RIZE/Male
Female	5.5	EZI-RIZE/Female

Tred-lite Orthotic Insoles and Wedges

Features and Benefits

- Tred-lite insoles are designed to improve the biomechanical alignment of the feet thereby reducing pain in the feet, legs and back
- Each insole is constructed from lightweight PU EVA¹ with integral 4° posting
- Available in two different densities allowing you to select an insole which exactly suits the patient's requirements
- Self-adhesive 2° and 4° wedges are also available for added forefoot and/or rearfoot correction - will attach to a wide range of insoles

Indications for Use

- Back pain
- Posture related symptoms
- Arch pain
- Knee pain
- Shin splints
- Tendon pain
- Mechanical foot pain

Steeper motionSupport® Insoles

Features and Benefits

- motionSupport® insoles are a durable, innovative range of ready-made insoles featuring unique design and construction
- The full length polyurethane insoles offer improved forefoot control whilst the 3/4 length fibreglass reinforced shell and fibreglass extension on the lateral aspect permits a more propulsive gait
- The flexible construction under the first metatarsal head allows the first ray to plantarflex and a small metatarsal button reduces pressure on the metatarsal heads
- Available in three arch heights to optimise sagittal plane control
- The slimmer profile allows for easier fitting in footwear

Indications for Use

- Arch pain
- Over pronation
- Posture related symptoms
- Back pain
- Tendon pain
- Knee pain
- Shin splints
- Metatarsalgia
- Function hallux limitus

Steeper Support Hallux Rigidus Insoles

Features and Benefits

- Hallux Rigidus insoles are designed to treat painful extension at the first metatarsophalangeal joint
- An ortholyn inner shell extends distally beyond the first metatarsophalangeal joint providing a responsive shock absorbing core whilst limiting painful extension motion
- Choice of three arch profiles optimises the contouring to the foot
- The low profile and durable construction facilitates use in a wide range of footwear
- Insole design allows use with various heel heights
- Sizes outside of the chart below are available to order on request

Diaped Duosoft Plus

Features and Benefits

- Therapeutic insoles for insensate feet
- The dual-layer design of Duosoft Plus consists of a resilient, shock absorbing urethane base and a PORON 94® top cover
- The slow rebound quality of the material cradles the foot and allows enhanced redistribution of body weight over the foot's plantar surface
- Soft, comfortable and allows the feet to remain cool, dry and odourless
- A Vygel heel accompanies the dual-layer formation to provide optimal shock attenuation at heel strike

Indications for Use

- For individuals with diabetes, arthritis, or other conditions that result in sensitive feet
- Metatarsalgia
- Pre-ulcerated sites
- Plantar fasciitis
- Foot deformities
- Morton's neuralgia
- Forefoot accommodation
- Skin breakdown

Diaped Duosoft Therapeutic

Features and Benefits

- Constructed with a multi-density material combination of plastazote and cellular urethane, these advanced insoles offer superb resilience, cushioning and shock absorption
- The insoles are designed to fit into both traditional footwear and 'additional depth' orthopaedic shoes
- The addition of an increased metatarsal support in the anatomical design is designed to facilitate off-loading of the metatarsal head area

Indications for Use

- For individuals with diabetes, arthritis, or other conditions that result in sensitive feet
- Metatarsalgia
- Pre-ulcerated sites
- Plantar fasciitis
- Foot deformities
- Morton's neuralgia
- Forefoot accommodation
- Skin breakdown

Slim Tech

Features and Benefits

- The lightweight and easy fitting Slim Tech with its 3° low arch allows for heel contact and a good comfortable fit
- The orthotic is for use in ladies' dress shoes and sports boots
- Slip is reduced by the design of the hook heel

Indications for Use

- Arch pain
- Knee pain
- Shin splints
- Tendon pain
- Back pain
- Postural related symptoms

Trio Slimfit

Features and Benefits

- The recessed medial heel post within the Trio Slimfit design offers control over pronation without risking irritation of the skin within the tighter fitting fashion shoe
- The forefoot contouring provides a stabilising effect upon the forefront joints and reduces cramping pain

Indications for Use

- Excessive pronation
- Forefoot pain
- Knee pain
- Heel valgus

Size	UK Shoe Size	Product Code

Prostep

Features and Benefits

- Prostep is designed to restore the natural position of the talus by supporting the inside edge of the heel and supports the spring ligament
- Resists the valgus rotation of the rearfoot, which is associated with pronation
- Anti-bacterial top cover and forefoot and rearfoot integral posts of 0°, 3° & 5°
- Available in full or 3/4 length

Indications for Use

- Low arches
- Excessive pronation
- Forefoot pain
- Knee pain
- Heel valgus

Trio

Features and Benefits

- The Trio insole is available in 3/4 and full length and is designed to resist excessive valgus rotation
- Inverts the calcaneus within the heel cup thereby maintaining mid tarsal joint
- Supports the proximal medial arch of the foot by providing navicular stability
- Each pair is supplied with additional 3° medial biplanar rearfoot posts and 3° lateral forefoot posts

Indications for Use

- Plantar fasciitis
- Heel pain
- Calf strain
- Anterior medial knee pain
- Hip instability

Equiflex

Features and Benefits

- By elevating the heel the Equiflex will restore ankle joint extension reducing the demand for compensation
- Lateral forefoot is supported at the level of the metatarsal heads to facilitate this and accommodate any additional postings that may be required
- Supplied with 0°, 3° and 5° rear posts and 6mm elevators

Indications for Use

- High arches
- Excessive pronation
- Forefoot pain
- Heel valgus

Trio Easy Fit

Features and Benefits

- The Easy Fit is intrinsically a 3/4 length medially posted orthotic with an additional posting option for triplanar control of pronation featuring a lateral cutaway design
- This model maintains the essential features for pronation control, including an optional biplanar rearfoot post
- A medial forefoot post can be used to replace the first metatarsal cushion if required
- Comfort is achieved without compromising natural movement and comfort

Indications for Use

- Excessive pronation
- Forefoot pain
- Knee pain
- Heel valgus

Trio Heel Pain

Features and Benefits

- The Trio Heel Pain orthosis is contoured to support the navicular bone of the arch, directly reducing the cause of plantar fascia strain
- Higher loading forces under the heel can also lead to inflammation of the skin and supporting structures of the foot
- Features a large cushioning protection for the softer structure under the heel bones

Indications for Use

- Plantar fasciitis
- Plantar heel pain
- Calf strain
- Anterior medial knee pain
- Hip instability

Interpod Diabetic

Features and Benefits

- Inverted rearfoot improves biomechanical function and enhances the windlass effect
- The 6° moderate arch height provides adequate functionality for the majority of patients
- PORON 96 top cover sets a new level of advanced underfoot technology
- The slow rebound cradles the foot and allows enhanced distribution of body weight over the foot's plantar surface
- Cradle functionality makes this the ultimate stock diabetic orthosis

Indications for Use

Darco Universal Toe Alignment Splint

Features and Benefits

- Universal toe alignment splint
- Constructed of soft cotton backed elastic material that will fit into standard footwear

Indications for Use

- Designed to maintain position of soft tissues until they heal following surgery for bunions or hammer toes
- Reduces incidence of recurrence of the deformity following surgical correction

Size	Product Code
Universal	NV0338

Slim Gel-Fit Bunion Sleeve

Features and Benefits

- The Slim Gel-Fit™ Bunion Sleeve is an elastic sleeve with a gel pad incorporated inside two layers of a comfortable and conforming fabric
- Thin design that fits most footwear and can be worn under hosiery
- Sleeve can also be worn on the hand to protect the thumb
- Washable and reusable
- Elastic bunion sleeve with the gel pad incorporated inside two layers of a comfortable and conforming fabric
- The covered gel pad shields the painful and sensitive bony protrusion of the forefoot
- Thin and compact design makes it perfect for everyday use and fits with most dress, casual, or athletic shoes and underneath hosiery
- Latex free and hypo-allergenic

Indications for Use

- Helps to relieve shoe pressure, friction, and shear forces on the bunion
- May also be worn on the hand to protect the thumb from discomfort during gripping activities

Starlight Standard

Features and Benefits

- Impact absorbing foam construction
- Cotton jersey lining
- Soft to the skin
- Wicks away moisture
- Allows air to circulate
- Outer layer made from robust cotton for longevity
- Lightweight - approximately 100g
- Machine washable
- Available in head circumferences 45cm to 62cm in 1cm increments

Indications for Use

- Simple yet effective protection for people at risk of head injury

Colour	Product Code
Brown*	5180-size
Red	5180-1-size
Blue	5180-2-size

Example: for a red Starlight Standard Helmet measuring 50cm - "5180-1-50"

*Available to order but non-returnable. Example: Helmet measuring 45cm - "5180-45"

Starlight Secure

Features and Benefits

- Impact absorbing soft/firm foam combination construction
- High quality cotton
- Soft to the skin
- Lightweight - approximately 100g - 130g (size dependent)

*Starlight Secure model shown with optional forehead protector, neck cushion and chin guard

Indications for Use

Philadelphia Universal Cervical Collar w/Trachea

Features and Benefits

- Featuring a two-piece design anatomically contoured to provide superior stability and comfort with large trachea opening for easy access
- Constructed from durable plastic, laminated to soft hypo-allergenic foam with contact closure

Indications for Use

- Immobilisation for both extrication and rehabilitation
- Post-operative discectomy
- Spinal fusion

Height measurement taken from posterior portion of mandible to the clavicle directly below.

Paediatric Custom LSO

Features and Benefits

Steeper's supplier in the USA has one of the largest spinal databases and physical libraries in the industry. This ensures that spinal orthoses can be manufactured utilising the latest CAD/CAM technology, allowing a mould to be carved nearly identical to a patient's measurements or scanned image*. Alternatively, the extensive spinal library can be used to secure a mould that can be modified to match the patient.

Each individual back brace is fabricated to the patient's unique measurements and specifications ensuring the very best fit, support and comfort.

* Scanned images are accurate to within one millimetre.

- Available: Custom fabricated finished or unfinished
- Bivalve opening: Anterior over posterior or posterior over anterior
- Overlap options: Smooth, step (butted) or with tongues
- Anterior designs: Flexion, neutral or pendulous
- Degree of lordosis: Custom fabricated lordosis
- Material options: LDPE, MPE, HDPE, Copolymer, Polypropylene, ABS or Kydex
- Liner: Unlined or hypo-allergenic aliplast in 1/8", 3/16" or 1/4"
- Attachments and accessories:
 - Bivalve opening closure kit with straps, chafes, loops & Chicago screws
 - Pectoral Pad (PPK/PPX) with straps, chafes, loops & screws
 - Pneumatic lumbar bladder
 - Polyethelene or foam tongues
 - Shoulder or axilla straps with chafes, loops & Chicago screws
 - Sternal Pad (SPK/SPX) with straps, chafes, loops & screws
 - Options: Designer pattern applied to brace & straps, modified negative cast, relief buildup, ventilation & waist pads

Indications for Use

- Ankylosing spondylitis
- Compression fractures
- Degenerative, herniated or bulging disc
- Laminectomy
- Lumbar stabilisation
- Spondyloysis
- Spondylolisthesis

Custom Scoliosis Brace

Features and Benefits

A scoliosis brace is an orthotic device used to prevent the continual advancement of spinal incurvation. Steeper's USA supplier's technology has increased the comfort level of these specialised back braces while minimising their physical contour. These custom scoliosis braces are stronger, lighter and less bulky than any brace on the market.

Indications for Use

- Idiopathic scoliosis

CAD/CAM & Modification Services

Steeper can manufacture your scoliosis brace utilising the latest CAD/CAM technology, to enable modification and mould carving to a patient's measurement or scanned image.* More traditional methods can also be used to fabricate custom scoliosis braces from casts or measurements. (X-rays are required for a finished scoliosis brace).

* Please note - scanned images are accurate to within one millimetre.

Mesh Arm Sling

Features and Benefits

- Allows for slide buckle or contact closure
- Manufactured from seamless breathable mesh material
- Measurements are sling pouch width x height

Indications for Use

- Indicated for injuries to the arm, shoulder, wrist or hand and cast support to maintain arm in neutral position

Size	Width/Height (cm)	Product Code
X-Small	30.5 x 12.7	21-1730
Small	38 x 15.2	21-1731
Medium	43 x 17.8	21-1732

Ultra Shoulder Immobiliser

Features and Benefits

- Features 1½" wide waist strap for secure immobilisation and thumb loop to help prevent wrist drop
- Manufactured from seamless, lightweight, durable material with added pad for shoulder strap
- Measurements are sling pouch width x height

Indications for Use

- Indicated for immobilisation following rotator cuff repairs, S/P glenohumeral acromioplasty surgery or other shoulder-related injuries

Size	Width/Height (cm)	Product Code
XX-Small	25.4 x 10.2	23-1869
X-Small	30.5 x 12.7	23-1870

Economiser Arm Sling

Features and Benefits

- Allows for slide buckle or contact closure for ease of application
- Manufactured from seamless lightweight muslin material; crayons included
- Measurements are sling pouch width x height

Indications for Use

- Indicated for injuries to the arm, shoulder, wrist or hand and cast support to maintain arm in neutral position

Size	Width/Height (cm)	Product Code
XX-Small	25.4 x 10.2	21-1969
X-Small	30.5 x 12.7	21-1970
Small	38 x 15.2	21-1971

Ultra Clavicle Strap

Features and Benefits

- Features heavy duty felt centre point pad with hook and loop closure for optimal comfort
- Constructed from breathable, open cell stockinette covered foam with contact closure

Indications for Use

- Indicated for immobilisation following rotator cuff repairs, S/P glenohumeral acromioplasty surgery or other shoulder-related injuries

Size	Strap Length* (cm)	Product Code
XX-Small	38.1 - 53.3	25-1729
X-Small	43.2 - 61	25-1730

* Measured from centre back, over shoulder, underarm returning to centre back

Ultra Arm Sling

Features and Benefits

- Features double d-ring hook and loop closure for ease of application and thumb loop to help prevent wrist drop
- Manufactured from seamless, lightweight, durable material with added shoulder strap pad; crayons included
- Measurements are sling pouch width x height

Indications for Use

- Indicated for injuries to the arm, shoulder, wrist or hand and cast support to maintain arm in neutral position

Size	Width/Height (cm)	Product Code
X-Small	30.5 x 12.7	21-1870
Small	38 x 15.2	21-1871

Deviation Hand Orthosis

Features and Benefits

- Terrycloth
- Headliner
- Comes with one liner
- Paediatric sizing
- Ambidextrous
- Progressively change wrist and finger positions and amount of wrist deviation by adjusting the internal frame and locking the frame's swivel with included hex wrench
- Correct or control wrist deviation motion even when changes in the position of the wrist and hand are made
- Unique below the wrist swivel ability that allows for lateral and medial movements
- Accommodates for ulnar and radial deviation

Indications for Use

- Great for arthritic or neuromuscular deformities or for flaccid, weak or spastic hand conditions

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code
Paediatric Small	6.35 - 8.89	16.51	DH101-PS
Paediatric Medium	7.62 - 11.43	17.78	DH101-PM
Paediatric Large	11.43 - 15.24	22.86	DH101-PL

Hand-Wrist Finger Orthosis

*Shown in standard Terrycloth with finger separator attached

Features and Benefits

- Terrycloth
- Headliner
- Comes with one cover
- Ambidextrous
- Paediatric sizing
- Side wings prevent ulnar and radial deviation
- Arm cuffs easily adjust to width of arm
- Excellent resting splint to prevent trauma to joints and increases ROM
- Multi-layered for comfort
- Adjustable reinforced spine allows for easy adjustments without tools
- Easy to clean
- Keeps thumb in functional position without stretching thenar eminence
- Side wings prevent ulnar/radial deviation
- Washable and absorbent covers help prevent skin breakdown
- Soft straps accommodate fluctuations in edema
- Arm, wrist, fingers independently adjustable
- Resists strong flexion synergy

Available to order in Comfyprone purple colour, please contact Customer Services

Indications for Use

- This popular splint provides support and positioning for weak or deformed hands

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code
Paediatric Small	6.35 - 8.89	17.78	H101-PS
Paediatric Medium	7.62 - 11.43	20.32	H101-PM
Paediatric Large	11.43 - 15.24	24.13	H101-PL

*Please note, the standard model supplied is Terrycloth.

Note: Supplied with finger separators

Hand Thumb Orthosis

Features and Benefits

- Terrycloth
- Headliner
- Comes with one liner
- Ambidextrous
- Paediatric sizing
- Adjustable thumb support
- Keeps thumb in functional position without stretching thenar eminence

Indications for Use

- Excellent for patients with highly adducted thumbs

Size	Wrist to Tip of Middle Finger (cm)	Total Length (cm)	Product Code
Paediatric Small	6.35 - 8.89	17.78	HT101-PS
Paediatric Medium	7.62 - 11.43	20.32	HT101-PM
Paediatric Large	11.43 - 15.24	24.13	HT101-PL

Goniometer and Spring-Loaded Goniometer Hand Orthoses

This goniometer works in the same manner as serial casting by gradually adjusting the amount of extension. Use our patented goniometer dial to set the range of flexion and extension, the supplied Allen wrench (which fits neatly under the cover) adjusts the angle on the hinge goniometer from 0° to 180° in 10° increments.

Features and Benefits

- Any Steeper comfy splints can be made with a goniometer or spring-loaded goniometer feature added
- Blocks flexion or extension while allowing motion in opposite direction
- Can be set in a desired static position
- Re-adjustable custom fit of wrist MP, PIP and DIP joints
- Goniometer dial and metal are protected and hidden to avoid any exposed metal parts
- Spring-loaded goniometer offers the same features as the regular goniometer with the additional benefit of a spring that gently pushes extremity to the selected degree of extension

Progressive and gradual dynamic extension or flexion in a comfortable, adjustable and removable splint form

For further details on all the splints we can supply, please contact our Customer Services department.

Paediatric Coloured Neoprene Wrist Brace

Features and Benefits

- Manufactured in a range of coloured neoprene
- Contrasting colourful bar casing and hook and loop fastening
- 15cm length
- Sold in single units
- Colours available: black, royal blue, navy, beige, red, day-glo orange

Indications for Use

- Healing fractures
- Healing ligament injuries

Size	Wrist Circ. (cm)	Product Code Left	Product Code Right

Paediatric Hip Abduction Splint - Standard & Adjustable

Features and Benefits - Standard Model

- Maintains concentric reduction of hips in patients with hip dysplasia
- Replaces spica casts and harnesses for certain developmental dysplasia patients
- One-piece, non-adjustable polypropylene orthosis holds infant in 90° hip flexion and 60° abduction
- Open design facilitates nappy changes
- Closed-cell foam lining does not retain moisture

Indications for Use - Standard Model

- Indicated for patients with hip dysplasia

Features and Benefits - Adjustable Model

- Lightweight, paediatric orthosis offers advantage of abduction adjustment over the standard paediatric hip splint model described above
- Sturdy polypropylene frame set in 90° hip flexion - abduction easily adjustable 40° through 180° by aluminium slotted screw assembly
- Fits infants from 3 months (6-12 lbs) to 18 months (over 30 lbs).
- More total contact than Pavlik harness
- Easy application, removal facilitates nappy changes
- Closed-cell foam does not retain moisture

Indications for Use - Adjustable Model

- Indicated for patients with hip dysplasia
- X-Large size effective for certain cerebral palsy patients

Mini TLC™ Hip Abduction Brace

Features and Benefits

- Prefabricated
- Material: MPE
- Pelvic band adjustable for hip development and pelvic circumference with quick release buckle closure
- Thigh cuff bivalve design adjustable to thigh proximal and distal measurements
- Breathable, washable liner absorbs perspiration and reduces heat build up
- Universal hip joint, TLC hip joint with infinite abduction/adduction & flexion/extension settings
- Available in 6 sizes

Indications for Use

- Arthroplasty
- Hip dislocation or potential high risk dislocation
- Hip displacia - anterior or posterior
- Hip management/immobilisation
- Hip revision
- Hip surgery
- Post-operative
- Pre-operative
- Stabilise, align & reinforce hip

UFO™

Features and Benefits

Introducing an improved prefabricated night splint for the effective treatment of plantar fasciitis and achilles tendinitis. The UFO™ comfortably supports the affected foot in a controlled amount of dorsiflexion, applying a Low Load Prolonged Stretch [LLPS] to the soft tissues of the plantar fascia and achilles tendon. LLPS promotes gentle stretching, healing and re-modeling of these tissues, effectively reducing the stress and pain caused by inflammation and tissue shortening. Such support can help break the cycle of injury, pain and re-injury due to otherwise unlimited contraction and deformity of the soft tissues at night.

- The simple variable dorsiflexion design allows the patient to quickly and easily adjust the amount of applied stretch to provide the most effective pain relief
- Adjustable bilateral dorsiflexion assist straps
- CoolFoam™ replaceable liner wicks moisture away from the skin for enhanced hygiene

Indications for Use

- Plantar fasciitis
- Achilles tendonitis

Paediatric A-Boot

Features and Benefits

- Washable, soft fleece-lined cover wicks away moisture away from the skin to maintain skin integrity and allows heel to float, thus eliminating pressure of friction on the heel and enhancing blood circulation
- Rubber sole with non-slip surface provides a walking base so patients can walk comfortably
- The splint frame resists plantar flexion while providing a dynamic push toe extension for the correction of foot drop, foot ankle contractures and deformity
- The adjustable toe post relieves pressure on the toes and adjusts to accommodate a variation of foot sizes
- Rotation bar can be positioned to the side to control hip and leg rotation
- An extender kit is available for patients with increased calf and foot circumference and or edema
- Universal sizing to reduce stock holding

Indications for Use

- For the patient who requires positioning but can also transfer and ambulate

Universal PRAFO® Paediatric

Features and Benefits

The PRAFO® (Pressure Relief Ankle Foot Orthosis) is a totally adjustable, custom fitted AFO that can help manage many ankle/foot anomalies, offering a range of adjustable features.

- Custom-contoured aluminium heel connector bar helps to control dorsi-plantar flexion by allowing infinite, measurable adjustments
- Ergonomically designed foot plate allows the liner to be changed easily without tools
- Integral, securely fastened vibram walking base provides a shoe-type surface for ambulatory patients
- The design protects the patient around the vulnerable areas of the foot and heel and will remain so during ambulation
- Calf and foot segments can be custom-modified to accommodate patient physiology
- Anti-rotation bar made of malleable aluminium and adjusts to control unwanted extremity rotation
- Suitable for day and night use
- Universal sizing to reduce stock holding

Indications for Use

- Pressure ulcers
- Can be used to resist the development of contracture

Size	Product Code
Universal	PRFO-550

Open Toe Cast Sandal

Features and Benefits

- Features open toes and heel for comfort and breathability
- Constructed from ribbed rocker sole with durable upper and contact closure

Indications for Use

- Lower extremity casted fractures

Size	Foot Length (cm)	Product Code

XX-Small	12.7	69-3079
X-Small	17.8	69-3080

Universal Rigid Post-Op Shoe

Features and Benefits

- Features flat footbed with rigid sole to prevent excessive foot motion whilst walking
- Constructed of wood-like sole with water resistant upper and contact closure
- Universal sizing to reduce stock holding

Indications for Use

- Post-operative foot protection and support

Size	Foot Length (cm)	Product Code
Universal	20.32	69-3121

Paediatric Fixed Walker

Features and Benefits

- Easy to apply design provides stability for the lower leg with low natural heel height
- Removable washable foam liner and aluminium uprights for adjustability; fits children from 1½ to 9 years old
- Constructed of coated malleable aluminium uprights, padded liner and contact closure straps

Indications for Use

- Stable foot or ankle fractures
- Severe sprains or strains
- Post cast removable or as a comfortable alternative to casting

Calzamedi Footwear

Features and Benefits

- Extended stiffeners on both medial & lateral sides provide improved stability of the foot
- Lightweight rubber soles contribute to a more energy efficient gait
- Hook and loop fastening and lace styles help children develop independent dressing skills
- Low opening style makes footwear easy to take on and off
- Extra padding around heel stiffeners improve comfort
- Fully breathable lining reduces skin irritation
- Adaptable sole provides enhanced function
- Leather uppers are durable and breathable
- Padded collars ensure a comfortable fit
- Comes with removable anatomically shaped footbeds

Indications for Use

- Flexible flat feet
- Hypermobility
- Hindfoot instability
- Sensitive feet
- Children who need extra support during gait

Prostep

Features and Benefits

Prostep is designed to restore the natural position of the talus by supporting the inside edge of the heel and supports the spring ligament. This resists the valgus rotation of the rearfoot, which is associated with pronation.

- Anti-bacterial top cover and forefront and rearfoot integral posts of 0°, 3° & 5°
- Full length or 3/4 length available

Indications for Use

- Low arches
- Excessive pronation
- Forefoot pain
- Knee pain
- Heel valgus

Kids Feet In Motion

Features and Benefits

These brightly coloured pairs consist of one blue (left) and one right (red) to help children learn whilst providing a functional solution.

- Medium density EVA orthosis specifically designed for children's feet
- A flat base on the standard orthotic allows for modification with wedges and components
- Insoles are available as standard or with a pre-posted heel to 5°

Indications for Use

- Arch pain
- Knee pain
- Shin splints
- Tendon pain
- Planovalgus feet
- Postural related symptoms

Trio

Features and Benefits

The Trio orthotic is designed to resist excessive valgus rotation, by inverting the calcaneus within the heel cup thereby maintaining mid tarsal joint. It also supports the proximal medial arch of the foot providing navicular stability.

- Each pair is supplied with additional 3° medial biplanar rearfoot posts and 3° lateral forefoot
- Available in 3/4 and full length posts

Indications for Use

- Plantar fasciitis
- Heel pain
- Calf strain
- Antero-medial knee pain
- Hip instability

Trio Easy Fit

Features and Benefits

Trio Easy Fit is intrinsically a 3/4 length medially posted orthotic with an additional posting option for triplanar control of pronation featuring a lateral cutaway design. This model maintains the essential features for pronation control, including an optional biplanar rearfoot post. A medial forefoot post can be used to replace the first metatarsal cushion if required, to achieve comfort without compromising on natural movement.

Indications for Use

- Medium arches
- Excessive pronation
- Forefoot pain
- Knee pain
- Heel valgus

Size	UK Shoe Size	Product Code Medium Density

Starflex Blanks

Features and Benefits

A versatile polyester resin orthotic blank that is worked with hot water or a hot air gun.

- Available pre-cut to shoe size and can be moulded to a customised shape
- Very strong, yet thin and lightweight foot orthotic
- A 'posting' can be applied simply using adhesive

Indications for Use

- Back pain
- Posture related symptoms
- Arch pain
- Knee pain
- Tendon pain

Peapod Junior

Features and Benefits

- 1.5mm thermoplastic base offers excellent fitting compatibility in most footwear
- Heat mouldable and grindable

Indications for Use

- Arch pain
- Knee pain
- Shin splints
- Tendon pain
- Back pain
- Postural related symptoms

Control Tech Soft 3/4 Kids

Features and Benefits

- Rearfoot wedging reduces the need for excessive arch height whilst maintaining support, comfort and providing superior shock absorption

Indications for Use

- Arch pain
- Knee pain
- Shin splints
- Tendon pain
- Back pain
- Postural related symptoms

Neurotec

Features and Benefits

- Neurotec is designed to provide support under the medial arch and the peroneal notch, which gives stability to the subtalar joint and de-stabilises inversion and eversion
- The metatarsal head arch stabilises the forefoot and offloads the metatarsal heads in the forefoot
- The heel cup stabilises the heel and the toe crest dorsiflexes the toes to improve tone

Indications for Use

- Mid neurological deficit affecting the foot
- Habitual reflex deformities
- Hypertonic muscle imbalance
