Vacancy

Orthotics Technician

Steeper Group is a privately-owned business that was formed almost 100 years ago. Since then we have expanded across prosthetics, orthotics and assistive technology – with a focus on creating significant turning points in individuals' lives through exceptional clinical services and award-winning products.

We are a true leader in our market. From humble beginnings, we have grown to become one of the UK's largest suppliers of Orthotic, Prosthetic and Assistive Technology products. Uniquely, we combine age-old craft skills with the latest innovations in manufacturing and materials.

Steeper's vision is to create life's turning points, together. We aim to do this with innovative prosthetic, orthotic and assistive technology products and services.

We currently have a vacancy for a motivated team player to join our company as an Orthotics Technician working within our orthotic department in the Royal National Orthopaedic Hospital in Stanmore.

Due to the increase in demand in manufacturing, a technician is required in this area for production of all TLSO, AFO and KAFO production, including cast rectification and plastic moulding. The role may also include working within the covering department with leatherwork and metal department.

Duties/ Responsibilities:

In this role you will assist in the manufacture of orthoses or orthotic parts, following agreed procedures and specifications as detailed by the orthotist and issued by the supervisor.

In addition, you will:

- Work closely with the Team Leader to ensure quick response to requirements.
- Be flexible within the department to meet its needs.
- Conform at all times with the Company's Quality policy.
- Abide by the Company's health and safety policy whilst at work, ensuring your own safety and that of your colleagues.
- Ensure that all work undertaken is ready for delivery within the relevant timescales.

The list above is not exhaustive.

You will need excellent communication skills, and be eager to learn new skills. You will need to be passionate about quality and "right first time", and be able to work well with others in a team.

Minimum one years' experience as an Orthotics technician is desirable, as is Metalwork, Woodwork or similar craft training. However, whilst experience is an advantage, consideration will be given to none skill applicants who, if successful, will receive full on the job training.

If you feel you have the necessary attributes to be considered for the above position, to apply, please complete an application form or submit your CV. Application forms can be obtained by emailing the HR team on (hr@steepergroup.com). Alternatively visit www.steepergroup.com/careers and download an application form from the website.

Due to the high volume of applications we anticipate we will receive for this role, in the event you have not heard from us within 14 days, we regret to inform you that you have been unsuccessful in your application.
