Vacancy

Senior Consultant Prosthetist

Steeper Group is a privately-owned business that was formed almost 100 years ago. Since then we have expanded across prosthetics, orthotics and assistive technology – with a focus on creating significant turning points in individuals' lives through exceptional clinical services and award-winning products.

We are a true leader in our market. From humble beginnings, we have grown to become one of the UK's largest suppliers of Orthotic, Prosthetic and Assistive Technology products. Uniquely, we combine age-old craft skills with the latest innovations in manufacturing and materials.

Steeper's vision is to create life's turning points, together. We aim to do this with innovative prosthetic, orthotic and assistive technology products and services.

We currently have an exciting opportunity for a qualified Prosthetist/Orthotist to provide clinical care supporting overseas High-Definition Silicone clinics in the Middle East.

This is a great opportunity for clinicians who want to broaden their horizons, gain international experience, and be involved in developing and improving a vital service, using skills and knowledge based upon at least 5 years clinical experience.

This unique opportunity will be supported with a comprehensive training package in high def silicone to ensure all work is completed to the highest standards. This position will allow the clinician to help shape and develop future service offerings in the Middle East. The role has the scope for huge potential expansion in both scope and remuneration.

Prosthetist/Orthotists applying for this role are expected to have a wide range of clinical skills with highly developed core competencies. A high degree of autonomy is required, as is a willingness to exceed the expectation of service users. Applicants are expected to push the boundaries of standard clinical services and integrate the newest and most effective treatments into the service.

The service will require the Prosthetist/Orthotist to deliver and develop services within several O&P facilities across the Middle East and would be required to spend extensive periods in the region annually. Time in the UK will consist of overseeing manufacturing and working with logistic teams to ensure timely delivery of all work. This means the clinician will have the opportunity to own/shape the complete service.

All support will be provided to facilitate travel and accommodation requirements etc.

The successful candidate will:

- Have excellent communication skills
- Be eager to listen to patients, customers, and colleagues
- Have a positive, 'can-do' mentality
- Have initiative, drive, and commercial awareness
- Have a desire to develop themselves and the business
- Be happy to help others and be part of a team
- Demonstrate integrity, honesty, and loyalty
- Be passionate about quality and the 'right first time' principle, with an overall goal of delivering objectives in line with the company vision
