Vacancy

Prosthetic Technician

Steeper Group is a privately-owned business that was formed over 100 years ago. Since then we have expanded across prosthetics, orthotics and assistive technology – with a focus on creating significant turning points in individuals' lives through exceptional clinical services and award-winning products.

We are a true leader in our market. From humble beginnings, we have grown to become one of the UK's largest suppliers of Orthotic, Prosthetic and Assistive Technology products. Uniquely, we combine age-old craft skills with the latest innovations in manufacturing and materials.

Steeper's vision is to create life's turning points, together. We aim to do this with innovative prosthetic, orthotic and assistive technology products and services.

We currently have a vacancy for a motivated team player to join our company as a Prosthetic Technician, working within our prosthetic clinic at our Hull Branch.

The role would suit a person with good hand skills, but also a problem-solving brain and someone who is keen to learn from our experienced team. Any experience would be desirable; however, we would welcome a trainee into this position.

Duties/ Responsibilities:

In this role you will act in a professional manner with other members of staff in the Prosthetic department and ensure that all prostheses and associated products are manufactured on time and assembled to meet the safety procedures laid down by the Company and manufacturers.

In addition, you will:

- Undertake the manufacture and repair of prosthetic limbs in accordance with the specification laid down by the prosthetist and component manufacturer.
- Ensure that all limbs are ready for fitting and delivery within the contract dates used at your centre.
- Ensure that all stock is correctly booked out to a relevant job sheet, promptly and legibly.
- Reduce any materials wastage by good working practices.
- Give advice and guidance on the manufacture of prosthetic limbs.
- Help train other members of staff in your area of expertise as required by your branch manager or line manager.
- Work with the prosthetists and line manager to ensure that you are up to date with new prosthetic componentry and manufacturing techniques.
- Identify any training needs required to fulfil your position within the Company and highlight them to your branch manager.
- Identify any possible hazards to your Branch Manager immediately.
- Abide by the Company's health and safety policy while working in the workshop, ensuring your own safety and that of your colleagues.
- Conform at all times with the Company's Quality policy.

What we offer in return!

- Competitive Salary
- Employee Assistance Programmes
- Gym Discounts
- Qualification Support
