Children's Therapeutic Footwear

Features and Benefits:

- Extended stiffeners on both medial & lateral sides provide improved stability of the foot
- Lightweight rubber soles help with a more energy efficient gait
- Both hook and loop and lace styles help children develop independent dressing skills
- Extra padding around heel stiffeners improve comfort
- Fully breathable lining reduces skin irritation
- Adaptable sole provides enhanced function
- Leather uppers are durable and breathable
- Padded collars ensure a comfortable fit

Indications for use:

- Flexible flat feet
- Hypermobility
- Hindfoot instability
- Sensitive feet
- Children who need extra support during gait
