

The Click Medical QuickFit Lacers are an easy to use fastening solution, allowing micro-adjustments throughout the day. They can be retrofitted to footwear, or used for other light closure applications in prosthetics and orthotics to offer a range of benefits for those with upper limb absence, or limited mobility.

Features and Benefits

- One-Hand, Micro-Adjustment**
 Uniform compression is easily achieved with a one-handed twist of the easy grip dials, allowing patients with limited fine motor skills to adjust fit in seconds throughout the day
- Pre-Laced System**
 Kit choice and fabrication is made simple with four ready-to-install sizes
- Easily Replaceable Components**
 Easily replace the dial and lace, with no need to remove rivets or re-fabricate device
- Proximal to Distal Tension Pull**
 Even-tension pull proximal to distal means no need to manually redistribute tension as with traditional lacing. Nylon-coated steel lace is low friction and high strength
- Rivet On**
 With double-cap press-fit steel QuickFit rivets, these are retrofittable to other systems and easy to install with the QuickFit Tool, along with durable, low-profile lace guides

Ordering Information

Order No.	Size	Details
NCMOK0180-130-05	X-Small*	Supplied with a low-profile dial, lace and 4 guides. Rivets sold separately. Designed for paediatric footwear size 35 EU/2 UK and smaller.
