

The Tribute foot offers a cost-effective option that provides stable footing and dependable performance on a variety of terrain, making it ideal for low to moderate impact individuals. Precisely gait matched, the multi-axial design and full-length toe lever provide the user with improved control and stability.

The Tribute provides anatomical plantar flexion, dorsiflexion, transverse rotation, and inversion/eversion through true multi-axial movement in all three planes, allowing for ease of movement, excellent ground compliance, and comfort.

Stride Control™ allows optional customisation of the plantar flexion/dorsiflexion characteristics with a simple adjustment of the posterior bumper.

CES CPI F02: Use this code to read the Tribute clinical evaluation summary on the Steeper website.

Features and Benefits

- Tri-axial technology to adapt to uneven terrain
- Full range of motion whilst maintaining ground contact
- Adjustable Stride Control™
- Removable foot shell
- Easy assembly and disassembly with one pin
