

The durable Truper foot was designed to take on the toughest of childhood challenges by combining stability and dynamic response. The foot stores and releases energy while in use, allowing for a smooth and controlled transition from standing to running. The inversion/eversion and superior transverse rotation provides exceptional ground compliance; improving performance and stability, whether walking or running.

The foot is available in two size ranges, which allows the foot size to be increased simply by purchasing the next size foot shell and sole plate, making it a cost-effective and flexible solution for a growing child.

Note: Sizes 16-18cm are supplied with blue ankle and sizes 19-21cm are supplied with a purple ankle

Features and Benefits

- Versatile finishing capability
- Sandal toe design allows for a choice of shoes
- Reduces fatigue and protects the residual limb
- Adjustable Stride Control™ to customise child's gait
- Sealing boot interlocks with the foot shell to prevent any debris from entering the foot

Cosmetics

Ordering Information

There is a 30-day trial period on this foot.

Includes - Foot shell, CPI Spectra Sock and sealing boot.

Impact Level Descriptions

High: Daily activities include fast walking, jogging, running, lifting heavy objects and/or recreational sports.

Ordering Example - NTP-LBEN-16-G2

Part ID	Side	Shell Colour	Mounting	Size	Firmness Category
